

# UC Fire Science

## **Best Practices: Labor-Management Relations in Fire Service**

### **FST3093: Labor– Management Relations**

**2-Day Residency: May 7 & 8, 2018 (1 credit hour, \$459)**

(at Boy Scouts of America, Evendale)

This course is design to provide the participant with a comprehensive look at the components involved in the development of a strong public safety labor management relationship in the Fire Service. The selection of topics will immerse the student in a wide range of topics including the history, development, and impact that organized labor has on the Fire Service work environment. Utilizing a research focused case based approach, this course will dig deeper into the most relevant issues related to labor management in today's public safety climate.
